## **Company Profile**

**We support the marine, offshore engineering and other engineering industries in the Asia Pacific region, with customer-centric Value Added Products & Services such as**

- Manufacture and remanufacture of all types of loadcells, loadpins and telemetric links, come with calibration certificates**
- Customised Loadcell System Solution & Integration such as electrical or hydraulic Anchor Winch Monitoring (Dynaline) Systems, together with CCTV systems**
- Calibration, regaging of all other proprietary made loadcells**
- Wire & offshore supplies pull testing**
- All load measurement, weighing & testing services**

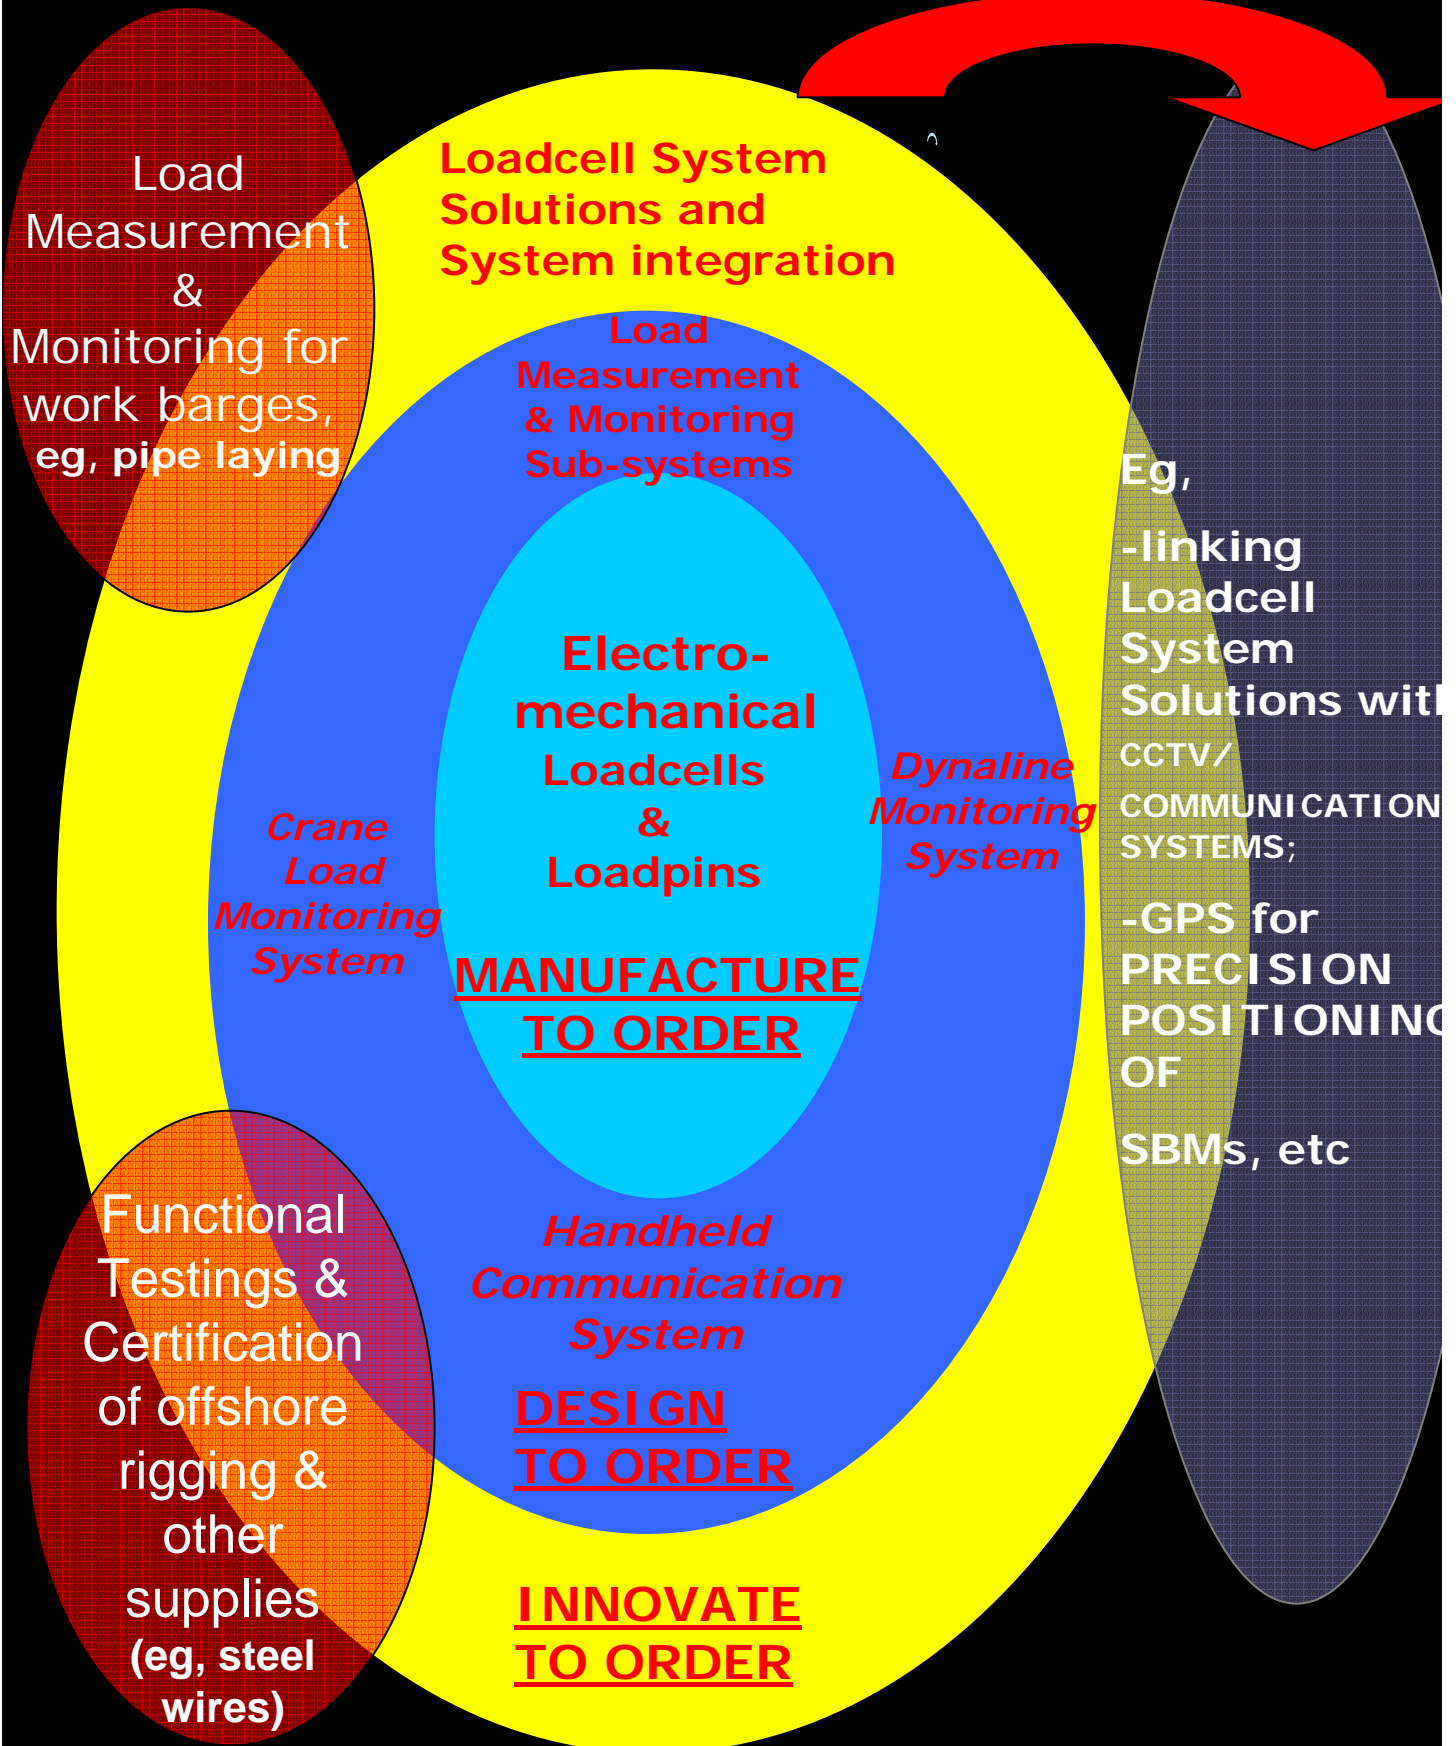

**LEPS**

**Adding value to your business with our niche loadcell products/systems**

## **Company Objectives**

- **Serving marine, offshore oil exploration and other engineering industries with value-for-money specialised loadcell products & systems, services**
- **Offering cost-effective customised Loadcell System Solutions**
- **Becoming your Strategic Growth Partner in Asia Pacific**

# Business Domain of Loadlink Engineering Products & Services

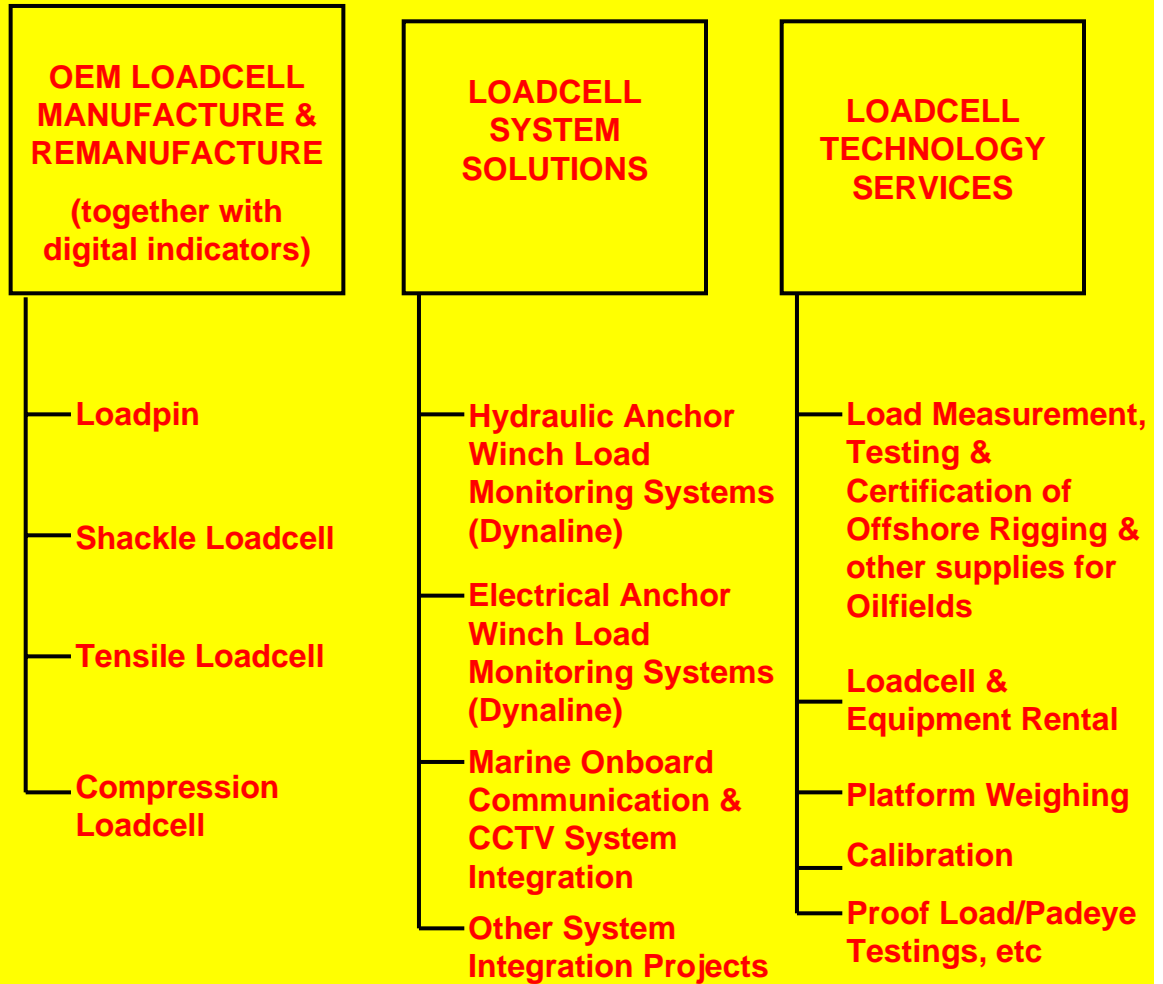

Adding value to your business with our niche loadcell products/systems

# LOADLINK ENGINEERING PRODUCTS & SERVICES

## - 3 Core Business Activities

**LEPS**

**Adding value to your business with our niche loadcell products/systems**

## **Major Industries served**

*Serving the  
marine  
and  
offshore oil &  
gas industries  
in Asia Pacific  
since the 1990s*

## **Our valued Customers**

**are major companies in the  
marine, offshore oil & gas  
industries & other engineering  
industries in Asia Pacific.**

*Direct Manufacturing and/or Equipment  
Rental options are available*

**LEPS**

**Adding value to your business with our niche loadcell products/systems**

## **LEPS PROJECT REFERENCE**

**Recent Loadcell System Solutions  
commissioned by LEPS include**

### **Case 1**

**Offshore Oil & Gas Platform and Module  
Weighing solutions, 50 to 15000 Mtons,  
using LEPS Computerised Data Logger  
and compression loadcells,**

### **Case 2**

**Anchor Mooring Load, Displacement &  
Speed Monitoring System & submersible  
stinger loadpins for pipe laying barges in  
use now in Asia Pacific waters**

### **Case 3**

**Design & Manufacture tensile loadcells &  
sheave loadpins for 1000 Mton crane  
barges deployed worldwide**

**LEPS**

**Adding value to your business with our niche loadcell products/systems**

## **Company Strengths**

- **Own design & manufacturing technology for OEM Loadcells, Loadpins & Loadcell System Solutions & Services**
- **Dedicated to provide fast turnaround, cost-effective value-for-money Loadcell Products, Services, System Solutions & Integration**
- **Expertise to remanufacture & regaging of other proprietary Loadcell makes**
- **Integrated machining, fabrication, calibration, testing & weighing facilities enable us to provide timely total response to customer needs**
