

LEPS

Loadlink Engineering Products & Services

Adding value to your business with our niche loadcell products/systems

Address: 51 Bukit Batok Crescent, #02-06, Unity Centre, Singapore 658077

Contact: Gan CC(9684 8170)

Fax : 63166 158

**LEPS
LOADCELL
SERVICES**

Website: www.loadcell.com.sg

LEPS

Adding value to your business with our niche loadcell products/systems

LEPS LOADCELL SERVICES

- **Remanufacture / Calibration of all Loadcells**
- **Wire/Offshore Supplies Testing & Certification**
- **Platform Module Weighing**
- **Design, Manufacture, Commission Loadcell System Solutions & Integration**
- **Equipment Rental**

LEPS

Adding value to your business with our niche loadcell products/systems

Services – Remanufacture/Regage & Calibrate all other proprietary loadcells

As an extension of our value-added to our customers,

LEPS has remanufactured and regaged own and all other proprietary makes of loadcells

Other proprietary loadcells include

- Strainstall
- Kruger PAT
- Takano
- NMB
- Brosa
- Robway
- DLM
- JCM,
- Dillon, etc

ALL regaged loadcells come with full calibration certification from major classification companies

In-house Calibration facilities include

•2 to 1000 KN tensile & compression Tinius Olsen calibration machines with class 0.5 % certificate, traceable to SPRING Singapore & National Meteorological Standard

•200 to 2000 KN Avery Denison compression calibration machines, etc

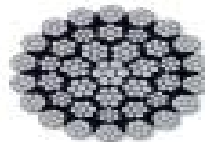

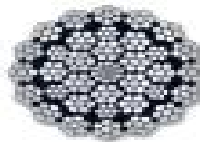

LEPS

Adding value to your business with our niche loadcell products/systems

Services – Wire/Offshore Supplies Testings & Certification

As an extension of our value-added to our customers,

LEPS has recently installed a 1200 Mton Pull Test Bed/Machine with spreader bar testing up to 1200 Mton, for cable sling, chain, shackle and any other testings

Targeted at

- Drilling Oil contractors
- Offshore oil supply companies
- Marine engineering
- Heavy lifting

Our wide range of testing services also include

- Bollard Test
- Padeye Test
- MPI
- Proof Load Tests, etc

ALL pull testing come with full calibration certification from major Classification Companies

LEPS

Adding value to your business with our niche loadcell products/systems

Services – Platform Module Weighing

Another extension of our value-added to our customers, LEPS has undertaken various platform weighing jobs with major offshore engineering companies

Various compression loadcells used for platform weighing jobs

**WEIGHING PC DATA LOGGER &
COMPRESSION LOADCELLS
FOR
OFFSHORE OIL & GAS PLATFORM MODULE
WEIGHING APPLICATIONS**

(such as Malaysia Shipyard Engineering's Bunga Kertas & MalamPaya Projects/Cooper Cameron in Philippines)

•50 to 15000 Mtons

LEPS

Adding value to your business with our niche loadcell products/systems

Services – Design, Manufacture, Commission & Integrate Loadcell System Solutions (including CCTV/Communications Systems)

As an extension of our value-added to our customers, LEPS has designed, developed, installed, commissioned our own Loadcell System Solutions, plus integration with other systems such as CCTV, Communications, etc.

Major clients include

- Leighton
- Saipem
- Labroy Marine
- Pelangi Offshore

- Anchor Winch Monitoring, Speed, Displacement System
- Pipe Laying system
- Crane Barge Pipe Loading Systems

LEPS

Adding value to your business with our niche loadcell products/systems

Services – Equipment Rental (Terms & Conditions apply)

Another extension of our value-added to our customers, LEPS has wide range of loadcells for short, medium and long term rentals.

Currently available :

- Fully certified 3, 6, 12, 17, 25, 35, 50, 80, 100, 120, 150, 200, 300 and 400 Mtons(*under construction*) cable and or telemetry shackle load cells.
- Fully certified 5, 10, 20, 30, 50, 100, 150 cable and or telemetry tensile load links
- Fully certified 10, 35, 100, 150, 200, 300, 650, 1000 mtons cable type compression load cells
- 10 to 150 mton calibrated platform and ceiling padeyes testers
- Hydraulic jacks & pump system
